

DFG-RFBR Ausschreibung 2020: Deutsch-russische Kooperationsprojekte in der Grundlagenforschung

https://www.dfg.de/foerderung/info_wissenschaft/2019/info_wissenschaft_19_82/index.html

Stichtag: 02.03.2020 | Programmausschreibungen

Die Deutsche Forschungsgemeinschaft DFG und die russische Stiftung für Grundlagenforschung RFBR haben eine thematisch offene Ausschreibung für deutsch-russische Kooperationsprojekte in der Grundlagenforschung für den Förderzeitraum 2021-2023 eröffnet.

RFBR-DFG Cooperation: Possibility for Joint German-Russian Research Projects - Funding Period 2021–2023

On the basis of their long-standing cooperation and the respective Memorandum of Understanding the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) and the Russian Foundation for Basic Research (RFBR) have opened the possibility for funding of joint German-Russian projects in all areas of basic research for the period of 2021–2023.

These joint proposals have to be based on a close interaction between the German and Russian research teams and should present joint project goals and a joint work plan with balanced contributions from all project partners. Proposals without strong interaction between the partners should be submitted as separate proposals in the standard funding schemes of DFG and RFBR.

At the DFG the proposals in this call are submitted in the funding scheme "Sachbeihilfe/Research Grants" and will be reviewed in competition with all other proposals in this scheme. It is important to note that there are no separate funds available for these efforts, proposals must succeed on the strengths of their intellectual merit in competition with all other proposals in this funding scheme. All proposals will be reviewed by both organisations separately. The results of the review process will be shared between the agencies. Support will be granted for those proposals where both DFG and RFBR recommend funding.

Proposals shall be written in English and must be submitted to both organisations in parallel in accordance with the proposal preparation requirements of each side, respectively. For German groups this means submission via the DFG elan system according to the guidelines for the Research Grants Programme. For the Russian applicants, the competition documentation for an open public competition to receive grants from the RFBR should be consulted.

In accordance with the full proposal target date of RFBR (2 March 2020) proposals to the DFG should be submitted not later than 2 March 2020. The next call for the funding period of 2022–2024 is foreseen for late 2020.
