

CYTED - Iberoamerikanisches Entwicklungsprogramm für Wissenschaft und Technologie

02.11.2018 | Bildungs- und Forschungskooperation

<http://www.cytcd.org/en/>

CYTED's main objective is to contribute to the harmonious development of the Ibero-American region through cooperation mechanisms that seek scientific and technological results, transferable to production systems and social policies. The beneficiaries of CYTED financing instruments may be universities, R&D centres and innovative corporations in member countries.

The CYTED Programme also answers the calling to act as a bridge for interregional cooperation in Science and Technology between the European Union and Latin America.

CYTED was created in 1984 through an Interinstitutional Framework Agreement signed by 21 countries of Spanish and Portuguese language. Since 1995, the CYTED Programme has been formally included among the Cooperation Programmes of the Ibero-American Summit of Heads of State and Government.
