

## ECCP - Europäische Plattform für Cluster-Zusammenarbeit

08.01.2015 | Fachportale und -informationen

<http://www.clustercollaboration.eu>

The European Cluster Collaboration Platform (ECCP) is embedded within the European Cluster Excellence Initiative and financed by the Competitiveness and Innovation Programme, since it is an instrument provided by DG Enterprise & Industry to enable cluster organisations to actively play a role on the international cluster arena.

The platform provides online quality information and networking support for clusters (organisations and members) aiming to improve their performance and increase their competitiveness through the stimulation of transnational and international cooperation. The online portal has been developed aiming to build communication bridges between cluster players from the same or a different sector.
