

ECCP - Europäische Plattform für Cluster-Zusammenarbeit: Cluster außerhalb Europas

05.07.2019 | Fachportale und -informationen

<https://www.clustercollaboration.eu/international-cooperation>

The European Cluster Collaboration Platform (ECCP) is an action of the Cluster Internationalisation Programme for SMEs funded under COSME launched by DG GROW of the European Commission in 2016. The ECCP provides networking and information support for clusters and their members aiming to improve their performance and increase their competitiveness through trans-national and international cooperation.

In a globalised world, SMEs need to be able to confront increasing competition from developed and emerging economies and to plug into the new market opportunities these countries will provide.

DG GROWTH of the European Commission therefore publishes relevant information on cluster development in strategic third countries.
