

ENRICH in Brasilien - Europäisches Netzwerk von Forschungs- und Innovationszentren und Drehscheiben

01.12.2019 | Netzwerke in Forschung, Technologie und Innovation

<http://brazil.enrichcentres.eu>

ENRICH is the European Network of Research and Innovation Centres and Hubs. Promoted by the European Commission through Horizon 2020.

ENRICH in Brazil (formerly known as CEBRABIC) is the Brazilian pilot centre of the European Network of Research and Innovation Centres and Hubs, with other pilot centres located in China and the USA.

With partners from Brazil and eight European countries (Germany, Portugal, Belgium, Hungary, Austria, Spain, and Turkey), the consortium's goal is strengthening cooperation in research, innovation, and business between Brazil and Europe by exchanging innovative practices, experience, and knowledge between all parts involved.

ENRICH in Brazil was inaugurated in November 2017, and in its first year, the focus has been mainly concentrated in defining its business model structuring and setting priorities, as well as defining its mission, vision, and objectives. Specifying these in a clear and well-structured way is fundamental to build a robust business and achieve with excellence the objectives proposed.
