The Falling Walls Foundation is inspired by the fall of the Berlin Wall on 9 November 1989 and the dawn of a new era of freedom. The non-profit foundation promotes breakthrough thinking and builds a growing network of leaders from science, business, and the public sector to tackle great challenges and make groundbreaking ideas accessible to society.

The Falling Walls Summit is the leading forum for global science leaders with focus on science breakthroughs. The summit takes place every year in Berlin from 7 – 9 November, the anniversary day of the fall of the Berlin Wall. This holistic approach of international, interdisciplinary and intersectoral discourse is globally unique and attracts leading researchers, CTOs, science strategists, sciences funders, and media worldwide.
