 <https://www.raeng.org.uk>

As the UK's national academy for engineering, the academy brings together the most successful and talented engineers from across the engineering sectors for a shared purpose: to advance and promote excellence in engineering.

The academy provides analysis and policy support to promote the UK's role as a great place from which to do business. It takes a lead on engineering education and it invests in the UK's research base to underpin innovation. The academy works to improve public awareness and understanding of engineering.

The Royal Academy of Engineering is a national academy with a global outlook and uses its international partnerships to ensure that the UK benefits from international networks, expertise and investment.
