

USA: DOE - Energieministerium

14.06.2018 | Bildungs- und Forschungskooperation, Fördereinrichtungen/ Kontaktstellen, Forschungseinrichtungen und -infrastruktur, Ministerien

<http://www.energy.gov/>

As a science agency, the Energy Department plays an important role in the innovation economy. The Department catalyzes the transformative growth of basic and applied scientific research, the discovery and development of new clean energy technologies and prioritizes scientific innovation as a cornerstone of US economic prosperity.

Through entities like the Loan Programs Office and the [Advanced Research Projects Agency-Energy \(ARPA-E\)](#), the Department funds cutting-edge research and the deployment of innovative clean energy technologies.

The Department also encourages collaboration and cooperation between industry, academia and government to create a vibrant scientific ecosystem. In addition, the [Energy Department's 17 National Laboratories](#) are a system of intellectual assets unique among world scientific institutions and serve as regional engines of economic growth for states and communities across the country.
