<http://www.nih.gov/>

The National Institutes of Health (NIH) invests nearly 37.3 billion US-Dollars annually in medical research for the American people.

More than 80 percent of the NIH's funding is awarded through almost 50,000 competitive grants to more than 300,000 researchers at more than 2,500 universities, medical schools, and other research institutions in every state and around the world.

About 10 percent of the NIH's budget supports projects conducted by nearly 6,000 scientists in its own laboratories, most of which are on the NIH campus in Bethesda, Maryland.
