Zeitraum: 16.09.2020 - 18.09.2020 Ort: Madrid Land: Spanien

The Spanish Ministry of Science and Innovation and the Ministry of Universities, in collaboration with the Universidad Politécnica de Madrid and the support of the European Network on Gender Equality in Higher Education and other Spanish stakeholders, invite to the 11th European Conference on Gender Equality in Higher Education that will be held in Madrid on 16-18 September 2020.

The aim is to promote a gender-sensitive culture in the academic and R&I systems in light of the global challenges ahead. The contributions received will strengthen the well-established debates on gender equality in higher education and research as well as will encourage mainstreaming the gender perspective in new domains such as national and regional funding agencies and the innovation sector.

The academic and institutional community behind the 11th European Conference is designing a high-level academic programme and also parallel social events that will help make this Conference more lively and interesting and will contribute to consolidate this European network.

The conference programme is in progress.

A conference fee will be charged; registration is possible until September 1, 2020 at the latest.
