

ENRICH in the USA: Tour zum Thema Fortschrittliche Fertigung

<https://usa.enrichcentres.eu/enrich-usa-advanced-manufacturing-focused-tour>

Zeitraum: 21.10.2019 - 25.10.2019 Ort: Buffalo, Ontario, Pennsylvania Land: USA und Kanada

ENRICH in the USA is launching the ENRICH in the USA Advanced Manufacturing-Focused Tour to assist European Union and EU-affiliate stakeholders interested in US-based business and collaborative partnership opportunities. This Advanced Manufacturing-Focused Tour, hosted by the Council of the Great Lakes Region, provides connections and information to help explore and identify transatlantic customer, supplier, and/or investment opportunities for visiting EU stakeholders within the advanced manufacturing industry in the binational Great Lakes region, North America's economic engine. Tour participants will leave the five-day itinerary with a clear understanding of investment, incentive, and operational gains the Great Lakes region has to offer should they be interested in conducting and/or opening a local office for business.

The opportunities leveraged by the host ENRICH in the USA Landing Hub, will enable participants to experience a interaction with US-based government, industry, and research experts who share similar challenges and solutions within the advanced manufacturing industry. These 5 - day program will provide EU visiting stakeholders a deep understanding of quicker pathways to access US and Canadian business, regulatory and technological resources, ensuring a smooth internationalization of advanced manufacturing equipment, processes, and/or software technologies or businesses.

Located in the Buffalo-Cheektowaga-Niagara Falls metropolitan area and hosted by the Council of the Great Lakes Region, the Advanced Manufacturing Landing Hub provides European stakeholders unprecedented access to two national economies – the United States and Canada.

The first cohort will be hosted October 21-25, 2019, but subsequent annual Tours will be available in mid-October in a consecutive 5-weekday span each year after. The Tour is ideal for advanced manufacturing stakeholders from research, innovation, and/or business organizations from the EU, ideally C-level or other executives from departments covering R&D, Engineering, Product Development, Manufacturing, Operations, Business Development and/or Finances.

This first Advanced Manufacturing-Focused Tour will accept up to 40 participants. The Tour is open to EU Member States and Horizon 2020 Associated Countries advanced manufacturing stakeholders.

The submission of [application](#) is possible until the 10th of September 2019.
