

IndTech 2022: Europäische Konferenz zu industriellen Technologien

<https://indtech2022.eu/>

Zeitraum: 27.06.2022 - 29.06.2022 Ort: Grenoble Land: Frankreich

The European Conference on Industrial Technologies is a flagship event in the European agenda, organised every two years by the European Commission. The IndTech2022 Conference takes place from 27 to 29 June in Grenoble, France. Under the programme cluster 4 of Horizon Europe: "Digital, Industry and Space", the conference will mobilise key players worldwide around the theme of industrial technologies of tomorrow.

This year, IndTech will focus on industry's dual green and digital transition, with discussions between researchers, industrial companies, start-ups, funding agencies and Commission representatives, as well as French administrative bodies and other Member States.

The event is co-organised by the French Ministry of Higher Education, Research and Innovation, the French Alternative Energies and Atomic Energy Commission, and DG Research & Innovation of European Commission under the French Presidency of the Council of the European Union
