

Vierter Internationaler Workshop: Degradation von Brennstoffzellen und Elektrolyseuren

🔗 <https://www.fchobservatory.eu/news-events/4th-international-workshop-degradation-issues-fuel-cells-and-electrolyzers>

Zeitraum: 05.05.2021 Ort: online

The 4th International Workshop on Degradation Issues is which is co-organized by FORTH/ICEHT, the University of Birmingham (UoB) and the Horizon 2020, FCH2-JU NewSOC project.

Topics include:

- Durability requirements in Fuel Cell and Electrolyser applications
- Mechanisms limiting Fuel Cell or Electrolyser Durability
- Diagnostics
- System issues and industrial applications
- Degradation and lifetime aspects for electrolyzers, electrodes, single cells, components and stacks

More information will be announced soon on the website of the conference.
