Erscheinungsdatum: April 2016 | Strategiedokumente

Australia's first National Strategy for International Education 2025 sets out a 10-year plan for developing Australia's role as a global leader in education, training and research. The intent of the strategy is to ensure Australia remains a leader in the provision of education services to overseas students. The strategy and its goals and actions have been developed looking through three lenses: the benefits and opportunities for students, for Australia, and for the world.
