Erscheinungsdatum: 07.04.2020 | Strategiedokumente

During an informal videoconference of 7 April 2020, national Ministers responsible for research and innovation supported the first 10 priority actions of the first ERAvsCorona Action Plan which resulted from dialogues between the European Commission services and national ministries.

It covers first short-term coordinated actions only. It sets out key measures the Commission services and the Member States are activating now to coordinate, share and jointly increase support for research & innovation, in line with the objectives and tools of the European Research Area. Coordination is also an important prerequisite for stepping up global cooperation, essential to tackle corona related issues.

This first ERAvsCorona Action Plan will be updated regularly by the Commission services and national administrations with other R&I coordinated actions that can be taken in the short, medium and longer term.
