

About us

Kooperation international is part of the Federal Government's strategy for the internationalisation of science and research, which is coordinated by the Federal Ministry of Research, Technology and Space (BMFTR). The portal provides information on international research, innovation and cooperation and networks funding, research and educational organisations. Here you will find information on the mission, services and operators of the platform as well as contact details.

1 Our Service

Kooperation international provides

- an overview of the national research and innovation systems and the variety of international cooperations in research, knowledge and innovation;
- an online portal for those seeking or offering information;
- a networking platform for German funding, research, education, and intermediary organisations;
- incentives for education and research organisations as well as companies to start or intensify international cooperation;
- information on the implementation of the internationalisation strategy.

Kooperation international offers

guidance on selected countries and topics:

- national and regional potential and actors in the field of education, research and innovation;
- strategic developments in research, technology, and educational policies;
- the legal framework for international cooperation;
- important bi- and multilateral programmes and successful cooperation projects;
- funding opportunities and contacts for international cooperation, as well as
- events and deadlines with relevance for cooperation in education, research or innovation.

2 On behalf of

An initiative of:

Kooperation international is part of the strategy of the Federal Government for the Internationalisation of Science and Research, coordinated by the Federal Ministry of Research, Technology and Space (BMFTR).
