The ERA.Net RUS Plus is an initiative aiming at promoting a unified European approach to collaborating with Russia in the field of science & technology research.

A Joint Call for ‘S&T projects' within the ERA.Net RUS Plus Call 2019 supports the following topics:

**Nanotechnologies:**
- Advanced nano-sensors for environment and health
- Novel functional nanomaterials based on design and modeling

**Health:**
- Regenerative medicine, biomaterials and organ-on-a-chip systems
- Drug discovery for cancer, cardiovascular and infectious diseases

**Social Sciences and Humanities:**
- Demography, migration, conflicts and security issues
- Opportunities for and challenges to regional development and social cohesion

**Robotics:**
No subtopics defined ("bottom-up" approach)

For further information, please refer to the ERA.Net RUS Plus website at [http://www.eranet-rus.eu/](http://www.eranet-rus.eu/)

**Countries / organization:** Turkey, Belgium, Bulgaria, Germany, Estonia, Finland, Greece, Lithuania, Moldova, Russia, Switzerland, Slovakia, EU

**Topic:** Engineering and Production, Basic Research, Life Sciences, Physical/Chemical Technologies
