

ENRICH in Brazil Innovation Challenge

<https://bit.ly/ENRICHInnoChallenge>

Deadline: 15.07.2020 | Innovation competitions

The Innovation Challenge is aimed at matching the needs of Brazilian non-profit organisations with innovative and tailored solutions proposed by European companies and organisations.

The global outbreak of the coronavirus pandemic has hit us all. Not only sanitarilly has the pandemic brought us into trouble, but several sectors are also suffering severely around the world from the economic situation caused by the preventive measures. This has an impact on all of us. ENRICH in Brazil is therefore launching its first Innovation Challenge, aimed at matching the needs of Brazilian non-for profit organisations with innovative and tailored solutions proposed by European companies and organisations.

ENRICH in Brazil is calling for Brazilian non-profit public and civil organisations and companies in need of innovative solutions to COVID-19 related challenges in the areas of:

- Tourism & Leisure
- Digitalization
- Sustainable Development.

The objective of the Innovation Challenge is to offer those non-profit organizations/companies with very scarce resources a unique service, scouting for innovative and tailored solutions to overcome their specific challenges.
