

Taiwan: ITRI - Industrial Technology Research Institute

10.08.2018 | Forschungseinrichtungen und -infrastruktur

<https://www.itri.org.tw/eng/>

Industrial Technology Research Institute (ITRI) is one of the world's leading technology R&D institutions aiming to innovate a better future for society. Founded in 1973, ITRI has played a vital role in transforming Taiwan's industries from labor-intensive into innovation-driven. It focuses on the fields of Smart Living, Quality Health, and Sustainable Environment.

Over the years, ITRI has incubated over 270 innovative companies, including well-known names such as UMC and TSMC. In addition to its headquarters in Taiwan, ITRI has branch offices in the U.S., Europe, and Japan in an effort to extend its R&D scope and promote opportunities for international cooperation around the world.

ITRI continues to seek strategic collaborative partners from around the world. Key partners include Corning Glass, Underwriters Laboratories, and Applied Materials of the United States; Asahi Kasei, Nidec, and AIST of Japan; Evonik, Heraeus, and Fraunhofer of Germany; TNO of the Netherlands; VTT of Finland; Ericsson of Sweden; and NRC of Canada.

With international partners and overseas offices in Silicon Valley, Tokyo, Berlin, Moscow and Eindhoven, ITRI is able to remain globally competitive and connected. Its efforts in technological innovations have been recognized by prestigious honors such as the Wall Street Journal's Technology Innovation Awards and R&D 100 Awards.
