

WBC-RTI - Länderinformationen Westbalkan zu Forschung und Innovation: Albanien, Bosnien-Herzegowina, Kosovo, Republik Nordmazedonien, Serbien und Montenegro

21.04.2020 | Bildungs- und Forschungskooperation, Fachportale und -informationen

<https://wbc-rti.info/>

This information platform acts as a source of high quality targeted information on research, technology and innovation (RTI) in/with/for the Western Balkan countries (WBCs) and builds upon WBC-INCO.NET website.

It contributes to a dialogue on RTI issues between the EU and the Western Balkan countries and to the integration of the research and innovation systems of the WBCs into the European Research Area (ERA).

Furthermore, the platform continues with the support for the Steering Platform on Research for Western Balkan countries by publishing countries' progress reports, reviews and conclusions from the meetings, and by offering a dedicated Steering Platform Area for its members.
