Zeitraum: 14.06.2021 Ort: Braga und online Land: Portugal

To raise awareness of the European Institute of Innovation and Technology's plans and opportunities, a launch event for the new EIT Strategic Innovation Agenda 2021-2027 is being organised with the Portuguese Presidency of the Council of the European Union.

The launch event will consist of two parts:

- a high-level policy session including high-level speakers
- four thematic sessions focused on the main focus areas of the EIT's new strategy

Building on last year's EIT Stakeholder Forum, the event will enable participants to share views and ask questions on the EIT's upcoming activities under Horizon Europe.

The event aims at innovators and organisations from business, education and research across Europe who want to learn more about the EIT and the different opportunities offered by the EIT Community.

It will be a hybrid event which can be joined online or in person at the International Iberian Institute of Nanotechnology (INL) in Braga, Portugal.
