

WSF - World Science Forum

<https://worldscienceforum.org/>

Zeitraum: 20.11.2019 - 23.11.2019 Ort: Budapest Land: Ungarn

Celebrating the 20th anniversary of the 1999 World Conference of Science, WSF will return to Budapest to be hosted once again by the Hungarian Academy of Sciences under the main theme "Science, Ethics and Responsibility".

Speakers of WSF will discuss the opportunities and risks of the new technological revolution in biological engineering, artificial intelligence, and other highly debated fields of scientific research that have the potential to radically transform human life.

Partner organisations include the United Nations Educational, Scientific and Cultural Organization (UNESCO), the American Association for the Advancement of Science (AAS), the International Science Council (ISC), the World Academy of Sciences (TWAS) and the InterAcademy Partnership (IAP).
