

EU-Japan Centre for Industrial Cooperation: Analysen der Minerva Research Fellows zu Technologien und Kooperationspotentialen

<https://www.eu-japan.eu/events/minerva-fellowship-programme>

Erscheinungsdatum: 01.07.2019 | Fachberichte und -studien, Länderberichte und -studien

The EU-Japan Centre for Industrial Cooperation proposes a 6 month in-house fellowship scheme in Japan, designed to support its research and policy analysis of EU-Japan economic and industrial issues.

The Research Fellow undertakes research work on a selected priority topic of the Centre, which should result in a consistent policy report (70-100 pages), to be owned by the Centre.

Past Session Reports are freely accessible. Topics included are:

- Wind energy in Japan: technological cooperation and business potential for European Companies
- Opportunities for venture firms, universities, and research institutes in the EU to conduct knowledge transfer with Japanese counterparts in nine digital technology areas
- Blockchain in Japan.
