

BRAGECRIM - Brazilian-German Collaborative Research Initiative on Smart Connected Manufacturing

14.03.2019 | Bildungs- und Forschungskooperation, Hochschulen, Netzwerke in Forschung, Technologie und Innovation

<http://www.bragecrim.rwth-aachen.de>

The Brazilian-German Collaborative Research Initiative on Smart Connected Manufacturing (BRAGECRIM) associates more than 30 Brazilian and German universities, research institutes and industrial partners around a research network on the strategic topic of manufacturing technology. The main goal of the cooperation is the sustainable strengthening of the industrial sector in both countries through basic and applied research and exchange of knowledge and researchers.
