ERA-Chemistry announces 2010 “Open Initiative”

http://new.erachemistry.net/open-initiative-2010

Stichtag: 23.07.2010 | Programmausschreibungen

ERA-Chemistry is pleased to announce the 2010 “Open Initiative” to fund transnational collaborative projects in the broad field of curiosity-driven chemical research.

More information and the guidelines for applicants are available on the ERA-Chemistry website: http://www.erachemistry.net/www.erachemistry.net

The eligibility requirements in form 1.02e (chapter I) will apply: www.dfg.de/forschungsfoerderung/formulare/download/1_02e.pdf

Please note the special requirements for non-university research institutions.

Costs for scientific instrumentation must not exceed €50,000 (including VAT and delivery). The total budget of the German applicant should be below €300,000 (excluding indirect costs) for three years.
