

## GAČR-DFG-Kooperation: Möglichkeit für gemeinsame deutsch-tschechische Forschungsprojekte – Förderperiode 2021–2023

[https://www.dfg.de/foerderung/info\\_wissenschaft/info\\_wissenschaft\\_20\\_02/index.html](https://www.dfg.de/foerderung/info_wissenschaft/info_wissenschaft_20_02/index.html)

Stichtag: 07.04.2020 | Programmausschreibungen

Die Deutsche Forschungsgemeinschaft (DFG) und die Tschechische Wissenschaftsstiftung (GAČR) haben die Möglichkeit zur Finanzierung gemeinsamer deutsch-tschechischer Projekte in allen Bereichen der Grundlagenforschung für den Zeitraum 2021–2023 eröffnet. Forschungsteams aus beiden Ländern werden aufgefordert, gemeinsame Vorschläge einzureichen.

On the basis of their long standing cooperation and the respective Memorandum of Understanding the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) and the Czech Science Foundation (GAČR) have opened the possibility for funding of joint German-Czech projects in all areas of basic research for the period of 2021–2023. Collaborations of research teams from both countries are invited to submit joint proposals.

These joint proposals have to be based on a close interaction between the German and Czech research teams and should present joint project goals and a joint work plan with balanced contributions from all project partners. Proposals without strong interaction between the partners should be submitted as separate proposals in the standard funding schemes of DFG and GAČR.

At the DFG the proposals in this call are submitted in the funding scheme “Sachbeihilfe/Research Grants” and will be reviewed in competition with all other proposals in this scheme. It is important to note that there are no separate funds available for these efforts, proposals must succeed on the strengths of their intellectual merit in competition with all other proposals in the funding scheme “Sachbeihilfe/Research Grants”. All proposals will be reviewed by both organisations separately. The results of the review process will be shared between the agencies. Support will be granted for those proposals where both DFG and GAČR recommend funding.

Proposals shall be written in English and must be submitted to both organisations in parallel in accordance with the proposal preparation requirements of each side, respectively.

The proposal must include a description of the full proposed research programme and research team and describe the total resources for the joint project (that is, the funds requested for both the Czech and German groups). In the electronic elan system it is only requested to fill in the German budget, because only applicants in Germany can receive funding from DFG.

Additional documents as CV of the principal investigators (PI) from both sides must be uploaded following the rules of each organisation respectively. Please note that the reviewers on both sides will need the full information on the PI from Germany as well as from Czech Republic.

For German partners – please note that if you are using the elan system for the first time, you need to register prior submitting your application with your complete personal and address details via <https://elan.dfg.de> by 31 March 2020 at the latest.

In accordance with the full proposal target date of GAČR proposals to the DFG should be submitted not later than 7 April 2020. The next call for the funding period of 2022–2024 is foreseen for the beginning of 2021.
