 <https://arua.org.za/>

The African Research Universities Alliance (ARUA) was inaugurated in Dakar in March 2015, bringing together sixteen (16) of the region's leading universities. It is a network of universities from different countries and different historical backgrounds, but with a common vision. The network is generally about expanding and enhancing significantly the quality of research done in Africa by African researchers.

ARUA is intended to develop local research excellence through collaboration to find solutions to the development problems of Africa. It is set to become a pan-African network for bringing research and academic excellence to the fore throughout the region by developing strong and viable research universities.
