

JPI MYBL - Demografischer Wandel

29.01.2016 | Netzwerke in Forschung, Technologie und Innovation

 <http://www.jp-demographic.eu/>

Joint Programming is a new approach to foster collaboration and coordination in R&D in Europe. It is a member-states driven activity. The Joint Programming Initiative (JPI) "More Years, Better Lives - The Potential and Challenges of Demographic Change" seeks to enhance coordination and collaboration between European and national research programmes related to demographic change. Areas affected by demographic change cover a wide range of research fields and policy topics ranging from health to social welfare, education & learning, work & productivity to housing, urban & rural development and mobility.
