

Schweden: VINNOVA - Sweden's Innovation Agency

30.03.2018 | Fördereinrichtungen/ Kontaktstellen

 <https://www.vinnova.se/en/>

Vinnova is Sweden's government agency for innovation. Its mission is to contribute to sustainable growth by improving the conditions for innovation.

VINNOVA does this mainly by funding innovation projects and the research needed to develop new solutions.

The agency also invests long term in strong research and innovation environments. They stimulate collaborations between companies, universities and other higher education institutions, public services, civil society and other actors.

The activities of VINNOVA also focus on strengthening international cooperation.
