

Agritech 2018 - 20. Internationale Landwirtschaftsmesse und -konferenz

✉ <http://agritechisrael.org>

Zeitraum: 08.05.2018 - 10.05.2018 Ort: Tel-Aviv Land: Israel

The theme for Agritech Israel 2018 conference is "Agriculture in arid and semi-arid regions". The conference program will be dedicated to the challenges and solutions facing these regions globally.

Participants congregating on the platform of the Agriculture Conference to introduce their solutions to local, national and multi-national agricultural challenges in desert Areas, will include a wide range of professions and expertise.

Agritech Israel 2018 will focus on efforts and achievements of policy makers, scientists, industries, organizations, farmers, project companies and bankers, working to overcome desert barriers, expand food sources and to "push the envelope" of agricultural limits.
