Zeitraum: 06.12.2022 Ort: online

Horizon Europe's Research Infrastructures actions support the development of an integrated, inter-operable and effective ecosystem of Research Infrastructures and Technology Infrastructures in Europe. The online info day on December 6th will focus on the 2023 calls of the Work programme 2023-2024, for its different destinations:

- INFRADEV – aiming to develop, consolidate and optimise the European research infrastructures landscape, and maintain global leadership
- INFRASERV – offering Research Infrastructures services to support health research, accelerate the green transition and digital transformation, and advance frontier knowledge
- INFRATECH – targeting the development of the next generation of scientific instrumentation, tools, methods, and advanced digital solutions for Research Infrastructures
- INFRAEOSC – aiming to enable an operational, open and FAIR European Open Science Cloud ecosystem

In addition, the info day will offer horizontal information on the submission, evaluation and management of the 2023 Research Infrastructures calls.
