Zeitraum: 21.03.2012 - 22.03.2012 Ort: Kuala Lumpur Land: Malaysia

Infosecurity World Exhibition & Conference 2012 will attract more than 5,000 local and international channel players, buyers and trade visitors. The show is organized in providing industry players with the first hand market information, industry developments and valuable networking opportunities.

Infosecurity World Exhibition & Conference 2012 is incorporating three other dedicated showcases namely Data Storage Showcase 2012, Cloud Computing Showcase 2012, and Software Development Showcase 2012 to make it a more comprehensive platform for the infosecurity industry.

Whilst the exhibition offers market players an unrivalled opportunity to promote brands, and secure million dollars deals, infosecurity professionals will have all the chance to see cutting edge software and technologies demonstrated, and to add more value, participate in InfoSec Asia 2012 Conference which is held concurrently.
