# Seminar der European Union Science Diplomacy Alliance: "Wissenschaftsdiplomatie denken, debattieren und gestalten"

https://www.science-diplomacy.eu/events/thinking-debating-and-shaping-science-diplomacy/

Zeitraum: 25.01.2023 Ort: online

On 25 January 2023 the European Union Science Diplomacy Alliance will engage in a seminar entitled “Thinking, Debating and Shaping Science Diplomacy”. Divided into three panels, the day-long event will explore the theoretical understanding of science diplomacy, discuss the geopolitical contexts in which it operates, and, with the aforementioned EU Science Diplomacy Agenda in mind, aim to strike a consensus on how science diplomacy is shaped for the future. While panel participation is expected to be reserved for Alliance members, the seminar will be streamed for wider viewing.
