

DWIH New Delhi: Symposium "International Cooperation for Green Hydrogen"

<https://www.dwih-newdelhi.org/en/event/greenhydrogen/>

Duration: 12.10.2022 City: online

International cooperation in research is key to accelerating the growth of versatile green hydrogen around the world. The symposium "International Cooperation for Green Hydrogen" will address policies and current research to facilitate an exchange on the topic including running research projects on transport and storage as well as technology applications in the field of mobility.

The event is organised by German Center for Research and Innovation (DWIH) New Delhi and its supporter organizations. It will take place online.
