

5. Deutsch-britische Aufforderung zur Einreichung von Vorschlägen: DFG-AHRC Förderinitiative in den Geisteswissenschaften

https://www.dfg.de/en/research_funding/international_cooperation/funding/ahrc/index.html

Stichtag: 15.02.2023 | Programmausschreibungen

Der Arts and Humanities Research Council (AHRC) und die Deutsche Forschungsgemeinschaft (DFG) veröffentlichen eine Aufforderung zur Einreichung von Vorschlägen für herausragende gemeinsame deutsch-britische Forschungsprojekte in den Geisteswissenschaften.

Both funding agencies want to strengthen international cooperation in these fields, to fund academic research of the highest quality within their own countries, and are aware that some of the best research can only be achieved by working with the best researchers internationally. The scheme will provide funding for integrated UK-German projects. The partner agencies will organise a coordinated peer review and a single joint selection process. Funding will be distributed among the research partners according to researchers' place of work and, more generally, according to the funding rules of each individual agency.

Proposals may be submitted in any area of the Humanities, as defined in the research funding guides. Only proposals whose primary aim is to make fundamental advances in human knowledge in the relevant fields may be submitted in response to the call for proposals. Applicants who are uncertain whether their proposal would be eligible should contact the relevant agencies for clarification.

Projects must have well-defined joint working programmes, clearly demonstrating the added value of UK-German collaboration. It is expected that each partner substantially contributes to the common project; this also includes taking on organisational responsibilities.

The duration of the projects will normally be and must not exceed three years. Successful projects will be expected to start in early 2024.

The UK component may seek up to 420,000 GBP (477.542 EUR) full economic costs (FEC), to which the AHRC will normally contribute 80 percent FEC. Projects should be integrated but do not have to be symmetrical, in the sense that neither the sums requested nor the items requested have to be identical on the UK and German sides. However, the work packages would be expected to be delivered reasonably equally.

The closing date for this call is Wednesday, 15 February 2023. Applications for this call will need to be submitted through DFG's elan portal. German applicants should note that if they are using the elan system for the first time, they need to set up an elan account by 8 February 2023 at the latest.
