Europ. Kommission / OECD STIP COMPASS: Estland – Länderinformationen zur Wissenschafts-, Technologie- und Innovationspolitik

05.02.2019 | Fachportale und -informationen

https://stip.oecd.org/stip/interactive-dashboards/countries/Estonia

The STIP Compass is an initiative of the European Commission and the OECD to collect together in one place quantitative and qualitative data on national trends in science, technology and innovation (STI) policy.

The portal supports the continuous monitoring and analysis of countries' STI policies and aims to become a central platform for policy research and advice supporting government officials, analysts and scholars.
