Competitive Knowledge Economy

Non-Oil Real GDP Growth

An indicator that measures the real annual economic growth of all sectors except oil. It is one of the most important macroeconomic indicators and reflects the overall state of the national economy over consecutive years. GDP includes the total value of annual production of goods and services.

Gross National Income (GNI) per Capita

This indicator measures the average income per person in a country. GNI includes the value of all the services and products that have been produced in the country (i.e. GDP) in a given year, in addition to the country's net income from abroad (such as dividends and interest). The UAE aims to increase the GNI per

Net inflow of Foreign Direct Investment as % of GDP

The indicator is measured as foreign direct investment (FDI) as a percentage of GDP. FDI is defined as an investment involving a long term relationship and reflecting a lasting interest and control by a resident entity in one economy in an enterprise resident in an economy other than that of the foreign direct investor. It is the sum of equity capital, reinvestment of earnings, other $% \left\{ 1,2,...,n\right\}$ long-term and short-term capital as shown in the balance of payments

Global Competitiveness Index

A composite indicator that assesses the competitiveness of countries based on 12 areas: institutions, infrastructure, macroeconomic environment, health and primary education, higher education and training, goods market efficiency, labor market efficiency, financial market development, technological readiness, market size, business sophistication, and innovation

Ease of Doing Business Index

business activity. It is based on 10 sub-indicators: starting a business, obtaining construction permits, registering property, obtaining credit facilities, protection of investors, payment of taxes, cross-border trading, enforcing contracts, resolving insolvency, and obtaining electricity.

Share of UAE Nationals in the workforce

The share of UAE nationals employed out of the total workforce (expatriates and nationals), across all sectors.

Emiratisation Rate in the Private Sector

An indicator that measures the share of UAE nationals employed in the private sector, as a proportion of the total private sector workforce (expatriates and nationals).

SME Contribution to Non-Oil GDP

An indicator that measures the share of GDP produced by small and medium-sized enterprises.

Global Entrepreneurship and Development Index (GEDI)

An indicator that measures 3 sub-indices: entrepreneurial attitudes (the general disposition of a country's population toward entrepreneurs, entrepreneurship, and business start-ups), entrepreneurial activity (the startup activity in the medium- or high-technology sector initiated by educated entrepreneurs in response to business opportunities in a somewhat competitive environment), and entrepreneurship aspiration (the efforts of the early stage entrepreneur to introduce new products and services, develop new production processes, penetrate foreign markets, substantially increase the number of firm employees, and finance the business with either formal or informal venture capital, or both).

Global Innovation Index

A composite index that measures the performance of innovation in countries. Innovation inputs are measured based on institutions, human capital and research, infrastructure, market sophistication, and business sophistication, while innovation output is measured by knowledge and technology outputs, and creative outputs.

Share of "Knowledge Workers" in the labor force

The share of highly skilled workers, workers in high-level professions, and workers classified under the International Standard Classification of Occupations (ISCO - 08) of the total workforce. These jobs include: legislators, managers, business executives, and specialists and technicians in the scientific, technical and humanitarian fields.

Research and Development Expenditure as % of GDP

A measure of the total domestic expenditure on research and development (in the public, academic, and private sector), as a percentage of GDP.

Sustainable Environment and Infrastructure

Air Quality Index

This indicator is a daily measure of the quality of air, in terms of pollution and the negative effects it may have on human health

Target 90%

Share of treated waste of total waste generated

This indicator measures the percentage of treated waste out of the total generated waste (solid waste) using various treatment methods (recycling, incineration, waste-to-energy, chemical treatment, except for the landfill), in line with the methodology used by the OECD.

Target

Share of clean energy contribution

This indicator measures the contribution of clean energy sources (renewable, nuclear) to the total energy mix.

Target

Water scarcity index

This indicator represents water overuse by measuring fresh water usage (including and surface water, renewable water and fossil water) as a percentage of overall renewable water in the UAE. The result is weighted to take into account desalination and waste

Target Ratio of 4.0

Target

Networked Readiness Index (Telecommunication & IT sectors)

This composite indicator measures the readiness of a country to capture opportunities provided by information and communication technology to increase competitiveness based on four main factors: Environment (The regulatory environment for information and communication technology and the environment for business and innovation), Readiness (Infrastructure for information and communication technology and availability of expertise / skills), Usage (Use of ICT by individuals, businesses, and government), Impact (The economic and social impact of information and communication technology)

The indicator measures the overall level of infrastructure at airports in the country through a global survey and its adherence to international standards.

Quality of air transport infrastructure

Target Rank 1

Logistics performance index

This indicator measures the quality of infrastructure support for logistics activities based on a global survey on the performance of logistics. The survey assesses the effectiveness of border and custon management in terms of simplicity and speed, the quality of trade and transport infrastructure, the ease of shipping at competitive prices, the efficiency and quality of logistics services, the ability to track and trace cargo, and arrival of cargo to destinations on time.

Among the top

Quality of overall infrastructure (such as transportation, electricity and telephone lines) This composite indicator measures the overall level of infrastructure

based on two main components: the infrastructure for transport and the infrastructure for electricity and telecommunication. The first component assesses the overall level and quality of road networks, air transport infrastructure and port infrastructure, while the second component assesses the quality of electricity supply and telecommunication infrastructure.

Target Rank 1

Quality of port infrastructure

This indicator measures through a global survey the overall level of infrastructure of ports in the country and its adherence to international standards.

Target Rank 1

Online Services Index

This indicator measures the evolution of e-government services (i.e., smart services) in terms of availability, quality and diversity of channels and the use of the public for these services

Target Rank 1

Time to obtain a loan/house from the Government for UAE nationals

This indicator measures the extent to which the country meets the housing needs of UAE nationals by measuring the waiting time between the date of application for a loan/house and the date of the final approval.

Target

Safe Public and Fair Judiciary

Judicial system efficiency

An indicator measured by the World Bank as part of the "Doing Business" report, which conducts a poll about the effectiveness of enforcing contracts. This indicator is based on three criteria: time needed to resolve a commercial case from its initiation to its resolution, the number of procedures required, and the cost as percentage of the total value of the lawsuit.

Among the top 10 countries

Reliability of Police Services This indicator expresses the opinion of various segments of

society about the ability to rely on police services to enforce law and order in the country

Target Rank 1

Sense of Security

This indicator measures the sense of security residents feel through a questionnaire. The questionnaire covers different segments of society and different geographic locations.

Target 100%

2021

Road Traffic Death Rate per 100 thousand population

An indicator that measures the number of deaths resulting from road accidents per 100,000 population annually. The target is to reduce this number to an average of 3 deaths/100,000 population, thereby placing the UAE among the top 5 safest countries in the world according to the World Health Organization rankings

World-Class Healthcare

Prevalence of Diabetes

Target

This indicator measures the number of people between the

age of 20 and 79 with diabetes in the UAE, as a proportion

of the total population. This age group is aligned with the

age group used by the International Diabetes Federation).

This indicator measures the average number of years that

Average Healthy Life Expectancy

a person can expect to live in full health.

Number of deaths from cancer

tumors per 100,000 population.

Healthcare Quality Index

satisfaction.

Target

This indicator measures the deaths from malignant

This indicator measures countries' performance in three areas: basic health outcomes, health infrastructure and

preventative care, and physical and mental health

Number of deaths from cardiovascular diseases

This indicator measures the deaths from cardiovascular disease per 100,000 population

Target

(5-17 years old) This indicator measures the proportion of children between the age of 5 and 17 who are considered obese out of the total children of the same age group. Obesity in children is defined as follows: • Children aged 5 to 12: The proportion of children with a BMI greater than 2 standard deviations above the growth standard median • Children aged above 12: The

Prevalence of obesity amongst children

proportion of children with a BMI greater than 30.

Prevalence of Smoking This indicator measures the daily consumption of cigarettes and tobacco products among different segments of society.

Percentage of Accredited Health Facilities This indicator measures the share of public and private hospitals adhering to national or internationally

Target

recognized standards.

This indicator measures the average number of

physicians per 1,000 population.

Number of physicians per 1,000 population

Number of nurses per 1,000 population

This indicator measures the average number of nurses per 1,000 population.

Target

First-rate Education System

Average PISA Score

An indicator that reflects the country's ranking and scores in the PISA exam, which measures the reading, mathematics and science skills of 15 year old students.

Among the top 20 countries

Upper Secondary graduation rate

An indicator that measures the share of national students graduating from secondary education out of the total students expected to graduate (calculated as the number of graduates, regardless of age, divided by the population aged 18 years).

Percentage of students with high skills in Arabic, according to national tests - UAE NAP

ninth grade students in public and private schools applying the Ministry of Education curriculum.

An indicator that evaluates the Arabic reading skills of

90%

Percentage of schools with effective school leadership

This indicator measures the percentage of public schools that achieve high scores on effective school leadership based on the school accreditation system.

Average TIMSS score

An indicator that reflects the nation's ranking and score in the TIMSS test, which measure the math and science skills of students in grades 4 and 8.

Among the top 15 countries

Enrollment rate in preschools (public and private)

An indicator that measures the percentage of children between the age of 3 and 5 and who are enrolled in preschools on the first day of September of the previous year (This indicator emphasizes the importance of providing children with a good foundation at an early

Target

Percentage of schools with high quality teachers

This indicator measures the percentage of schools that meet certain quality standards of teachers based on a clear system of measurement and evaluation.

100%

Enrollment rate in foundation year

This indicator measures the share of students who have to undergo foundation year (a program usually focusing on strengthening Arabic, English, Math and IT) out of the total university applicants in the same year
